

ADDITIVES & SYSTEM CLEANERS

MADE IN GERMANY

WWW.LUXPART-INTERNATIONAL.COM

FUEL SYSTEM CLEANER PLUS – *waterbinding effect*

- **cleans** the fuel system
- **binds** and burns moisture and condensate
- **removes** dirt, resins and sticky deposits in the fuel system
- **reduces** coking residues and soot deposits
- **protects** against corrosion
- **lowers** the exhaust gas values
- **improves** engine performance
- **increases** the life of the fuel system and the catalytic converter

Application note: regularly with every tank filling

REACTION TIME
works during operation

APPLICATION FIELD
for use in all gasoline engines

CONSUMPTION
sufficient for 40-60 liters of fuel

APPLICATION INTERVAL
with every tank filling

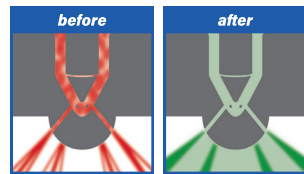

FUEL SYSTEM

GDI INJECTOR CLEANER

- **cleans** and keeps the fuel system clean, especially for direct injection engines
- **improves** engine performance, fuel consumption and exhaust emissions
- **optimizes** the combustion process
- **prevents** formation of new deposits
- **optimizes** fuel consumption, engine performance and emissions
- **protects** against corrosion

REACTION TIME
works during operation

APPLICATION FIELD
for use in all gasoline engines

CONSUMPTION
sufficient for 50-70 liters of fuel

APPLICATION INTERVAL
with every tank filling or on demand

FUEL SYSTEM

DIESEL SYSTEM CLEANER PLUS – *waterbinding effect*

- **cleans** the fuel system
- **binds** and burns moisture and condensate
- **removes** dirt, resins and sticky deposits in the fuel system
- **reduces** coking residues and soot deposits
- **protects** against corrosion
- **lowers** the exhaust gas values
- **improves** engine performance
- **increases** the service life of the fuel system and exhaust filters

Application note: regularly with every tank filling

REACTION TIME
works during operation

APPLICATION FIELD
for use in all diesel engines

CONSUMPTION
sufficient for 60-80 liters of fuel

APPLICATION INTERVAL
with every tank filling

DIESEL SYSTEM

DIESEL SYSTEM CLEANER ULTRA – *fast & effective*

- **cleans** the fuel system quickly and effectively
- **cleaning** effect already after the first use, especially in heavily soiled fuel systems and combustion chambers
- **optimizes** the combustion process
- **reduces** fuel consumption and emissions
- **protects** against corrosion
- **increases** the service life of the fuel system and exhaust filters

Application note: one-time application

REACTION TIME
works during operation

APPLICATION FIELD
for use in all diesel engines

CONSUMPTION
sufficient for 40-60 liters of fuel

APPLICATION INTERVAL
on demand

DIESEL SYSTEM

CAT CLEAN

Catalytic Converter & Oxygen Sensor Cleaner

- **cleans** the catalytic converter and the lambda probe
- **dissolves** carbon deposits
- **prevents** from heavy soiling when used regularly
- **reduces** fuel consumption
- **optimizes** engine performance
- **guarantees** an optimal performance of the catalytic converter and the lambda probe

Note: application for gasoline and diesel systems

FUEL & DIESEL
SYSTEM

REACTION TIME

works during operation

APPLICATION FIELD

for use in all diesel and gasoline engines

CONSUMPTION

sufficient for 60-80 liters of fuel

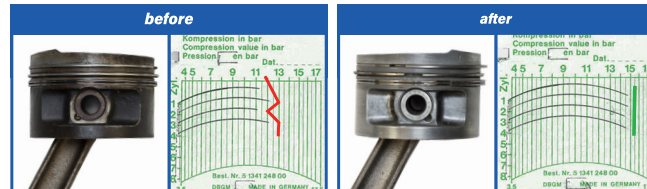

APPLICATION INTERVAL

with every tank filling or on demand

ENGINE FLUSH

- **cleans** the oil system
- **protects** through lubricating additives
- **dissolves** dirt and resin build-up in the entire oil circuit
- **eliminates** residues from the combustion process
- **ensures** even compression
- **reduces** wear, fuel and oil consumption and exhaust emissions
- **increases** the life of the catalytic converter

OIL SYSTEM

REACTION TIME

approx. 15-20 min.

APPLICATION FIELD

for use in all diesel and gasoline engines

CONSUMPTION

sufficient for up to 5 liters of engine oil

APPLICATION INTERVAL

before every oil change

AIRCON PURIFIER

- **professional** neutralization of unpleasant odors
- **disinfects** the vehicle interior
- **gives** the vehicle interior a pleasant smell
- **improves** the room climate and ensures that the air conditioning system operates hygienically

REACTION TIME

depends on the performance of the Nebulizer machine that is used

APPLICATION FIELD

to improve the air quality of the vehicle interior

CONSUMPTION

sufficient for 1 application

APPLICATION INTERVAL

on demand

AIR CONDITION

AIRCON REFRESHER

- **neutralizes** unpleasant odors
- **gives** the vehicle interior a pleasant smell
- **improves** the room climate and ensures that the air conditioning system operates hygienically
- **easy** application by spray can

REACTION TIME

approx. 15 min.

APPLICATION FIELD

to improve the air quality of the vehicle interior

CONSUMPTION

sufficient for one car

APPLICATION INTERVAL

on demand

AIR CONDITION

EVAPORATOR CLEANER

- **cleans** the air conditioning system
- **effective** cleaning through foam formulation
- **removes** germs and dirt
- **neutralizes** unpleasant odors
- **improves** the room climate and ensures that the air conditioning system operates hygienically
- **easy** application by spray can

AIR CONDITION

ANWENDUNGSDAUER

ca. 15 min.

ANWENDUNGSGEBIET

zur Verwendung in allen Klimaanlage

VERBRAUCH

ausreichend für 1-2 Anwendungen

ANWENDUNGSINTERVALL

bei Bedarf

RUST REMOVER MoS₂

- **dissolves** rusted metal connections and corroded connections
- **infiltrates** and penetrates rust
- **protects** metal parts from corrosion
- **displaces** moisture
- **high** creep properties
- **suitable** as a lubricant

SERVICE PRODUCTS

REACTION TIME

approx. 5 min.

APPLICATION FIELD

for all types of maintenance work

CONSUMPTION

depending on application

APPLICATION INTERVAL

on demand

ELECTRICAL CONTACT CLEANER

- **cleans** switch and plug contacts and other electrical connections
- **improves** connectability and loosening power
- **residue-free** application
- **not** corrosive or conductive

SERVICE PRODUCTS

REACTION TIME

approx. 3 min.

APPLICATION FIELD

for all types of electrical connections

CONSUMPTION

depending on application

APPLICATION INTERVAL

on demand

BRAKE CLEANER

- **cleans** drum and disc brakes, brake linings, brake pads and clutch parts
- **acetone-free** formulation
- **not** corrosive
- **good** material compatibility with paint and plastic parts
- **suitable** for repairs, assembly and routine maintenance work

SERVICE PRODUCTS

REACTION TIME

works during application

APPLICATION FIELD

for quick cleaning of drum and disc brakes, brake pads and clutch parts

CONSUMPTION

depending on application

APPLICATION INTERVAL

on demand
